DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 43, 47-54, 56, 58, 62-65, 67-69, 71-75 are

rejected under 35 U.S.C. 102(a) as being clearly anticipated by admission in the specification.

RALGRO is stated (page 9, lines 9-20) to be a commercially available formulation of immediate and controlled release zeronal, with lactose diluent.

Claims 44-46, 55, 57, 59-61, 70

are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 76, 77 are allowed.

Applicant's arguments with respect to all claims have been considered but are moot in view of the new ground(s) of rejection.

The 112 rejection is withdrawn, however, "immediate release" is reflective of a distinction between 2 components of the implant, rather than a statement of release within a time frame of minutes or hours following implantation.
